HOW TO USE THIS VAULT

This vault contains 50 prompts designed to accelerate your digital product creation.

Each prompt is ready to copy, paste into your AI tool of choice, and customize with your specific details.

Copy and Paste Correctly

Every prompt is structured to work immediately.

Copy the entire prompt text, including all instructions and formatting.

Paste it directly into:

ChatGPT
Claude
Gemini
or any similar AI tool

The prompt will guide the AI to produce the specific output you need.

Do not add extra context unless the prompt asks for it.

The prompts are complete as written.

Customize Brackets

Every prompt includes customization fields marked with brackets:

[like this]

Before pasting the prompt, replace the bracketed text with your specific information.

Example:

If a prompt says:

Create a guide for [target audience]

Replace [target audience] with:

Freelance graphic designers

Remove the brackets entirely before submitting the prompt.

Refine AI Outputs

AI tools generate drafts, not final products.

After receiving output, review it for:

Accuracy — Does it reflect what you actually know?

Specificity — Is it concrete or generic?

Tone — Does it sound human or robotic?

Edit the output.

Add examples from your experience.

Remove filler language.

The AI gives you structure.

You add substance.

Avoid Generic AI Writing

Generic AI writing uses phrases like:

"unlock your potential."

"game-changing"

"dive deep"

Remove these.

Replace them with direct statements.

Ask yourself:

Would a professional say this?

Or does it sound like every other AI-generated guide?

If it sounds like marketing copy, rewrite it.

3-STEP PROMPT USAGE METHOD

Step 1: Select the prompt.

Find the prompt that matches your current task.

Use the Quick Reference Index at the end if you need to scan all 50 at once.

Step 2: Customize and Paste

Replace all bracketed fields with your specific details.

Paste the complete prompt into your AI tool.

Step 3: Review and Refine

Read the output.

Edit for accuracy.

Remove generic language.

Ensure it reflects your actual knowledge and voice.

QUICK TROUBLESHOOTING GUIDE

The output is too generic

Add more specific details to the bracketed fields.

Tell the AI exactly what you want instead of using broad categories.

Output is too long

Ask the AI:

Reduce this to [X] words while keeping the core instruction.

Be specific about the target length.

The output sounds robotic

Rewrite the output in your own words.

Use the AI draft as structure, then add the following:

Your voice

Your examples

Your tone

SECTION 2: CORE PRODUCT CREATION PROMPTS

These 15 prompts help you build the main content of your digital product.

Use them in sequence or jump to the specific task you need.

Prompt 1: Product Outline Builder

Purpose: Generate a complete product outline with chapter titles and section breakdowns.

Create a complete product outline for a digital guide titled "[product title]" that helps [target audience] achieve [specific outcome].

The product should follow this structure:

1. List 5–7 main chapters
2. Under each chapter, include 3–5 section titles
3. Keep chapter titles action-oriented and specific
4. Ensure each section logically builds toward the outcome
5. End with a conclusion chapter

Format the outline with a clear hierarchy.

Do not write the content yet — only the structure.

Prompt 2: Chapter Expansion Prompt

Purpose: Turn a chapter title into full, structured content.

Write a complete chapter for a digital product titled "[chapter title]" that teaches [target audience] how to [specific skill or outcome].

The chapter should:

1. Open with a brief explanation of what this chapter covers
2. Include 3–5 main sections with clear subheadings
3. Provide actionable steps, not theory
4. Use short paragraphs (2–4 sentences each)
5. End with a brief transition to the next chapter

Write for beginners. Avoid jargon. Keep the tone professional and direct.

Target length: 800–1200 words.

Prompt 3: Section Deep Dive

Purpose: Expand a single section with depth and clarity.

Expand the section titled "[section name]" into 300–500 words.

This section should:

1. Explain the concept clearly for someone with no background knowledge
2. Include one concrete example

3. Provide 2–3 actionable steps the reader can take
4. Use simple, direct language
5. Avoid marketing phrases or hype

Write as if you're explaining this to a colleague who needs to understand it quickly and use it immediately.

Prompt 4: Beginner Simplification Rewrite

Purpose: Rewrite complex content for absolute beginners.

Rewrite this content for someone with zero experience in [topic]:

[paste your content here.]

Make these changes:

1. Replace technical terms with plain language
2. Break long sentences into shorter ones
3. Add a brief example after each main point
4. Remove assumptions about prior knowledge
5. Keep the core instruction intact

Do not add fluff or motivation. Just simplify the explanation.

Prompt 5: Clarity Tightening Prompt

Purpose: Remove unnecessary words and tighten vague language.

Edit this content to make it more direct and clear:

[paste your content here]

Apply these edits:

1. Remove filler phrases like "it's important to note" and "you might want to"
2. Replace vague language with specific terms
3. Shorten sentences where possible without losing meaning
4. Remove redundant explanations
5. Keep all actionable steps intact

Return the edited version without commentary.

Prompt 6: Remove Fluff Editor Prompt

Purpose: Strip marketing language and hype from AI-generated content.

Remove all marketing language and hype from this content:

[paste your content here.]

Delete or replace:

1. Phrases like "game-changing," "unlock," "dive deep," and "empower."
2. Exaggerated claims
3. Unnecessary enthusiasm
4. Generic motivational statements
5. Any phrase that sounds like a sales pitch

Keep the instructional content.

Make it sound like a professional wrote it for practical use, not for selling.

Prompt 7: Example Generator Prompt

Purpose: Generate specific, realistic examples for abstract concepts.

Generate 3 concrete examples that illustrate this concept:

[paste the concept or instruction.]

Each example should:

1. Be realistic and relatable to [target audience]
2. Show the concept in action, not just describe it
3. Be specific (use names, numbers, scenarios)
4. Be 2–3 sentences long
5. Demonstrate a different variation or use case

Avoid generic examples. Make them feel real.

Prompt 8: Framework Creation Prompt

Purpose: Build a simple, memorable framework from a complex process.

Create a simple framework for [process or system] that helps [target audience] achieve [specific outcome].

The framework should:

1. Have 3–5 clear steps
2. Use an acronym or memorable structure if possible
3. Be explained in plain language
4. Include one action item per step
5. Take no more than 300 words to describe

Format:

Framework name
Brief description
Step-by-step breakdown

Prompt 9: Visual Diagram Description Prompt

Purpose: Describe a process visually so it can be illustrated or understood without graphics.

Describe this process as a visual diagram:

[explain the process]

Format the description like this:

1. List each component or step in sequence
2. Use arrows (→) or flow indicators
3. Show relationships between elements
4. Keep it simple enough to sketch on paper
5. Label each part clearly

Present it as a text-based diagram that someone could recreate visually.

Prompt 10: Checklist Builder

Purpose: Convert instructions into an actionable checklist.

Turn this content into a checklist:

[paste your content here.]

The checklist should:

1. Have 5–10 items

2. Use action verbs ("Complete," "Review," "Set up")
3. Be specific enough to check off when done
4. Follow the logical order of the process
5. Fit on one page

Format each item as a single line.

No explanations—just the action.

Prompt 11: Case Example Builder

Purpose: Create a realistic case study or scenario demonstrating the concept.

Write a case example showing how [target audience] would use [concept/method/tool] in a real situation.

The case should:

1. Introduce a specific person or business (use a realistic name)
2. Describe their starting problem in 1–2 sentences
3. Show how they applied the method step-by-step
4. State the specific result they achieved
5. Be 150–250 words total

Make it believable.

Avoid exaggeration.

Focus on the process, not just the outcome.

Prompt 12: Comparison Table Builder

Purpose: Build a comparison table showing differences between approaches or options.

Create a comparison table for [topic].

Compare:

[option 1]

vs

[option 2]

vs

[option 3]

Based on these criteria:

1. [criterion 1]
2. [criterion 2]
3. [criterion 3]
4. [criterion 4]

Format as a simple text table with columns and rows.

Keep entries brief (1–2 sentences per cell).

Focus on factual differences, not opinions.

Prompt 13: Objection Handling Explanation

Purpose: Address common concerns or objections readers might have.

Write a section addressing this common objection:

"[state the objection or concern]"

The response should:

1. Acknowledge the concern directly
2. Explain why it exists

3. Provide a clear, factual response
4. Include one example or scenario
5. Be 200–300 words

Tone: understanding but firm.

No dismissiveness.

No hype.

Prompt 14: Step-by-Step Builder

Purpose: Break down a process into numbered, sequential steps.

Create a step-by-step guide for [process or task].

The guide should:

1. Have 5–10 steps
2. Start each step with an action verb
3. Include what to do and what the outcome of that step is
4. Be specific enough that someone can follow it without additional explanation
5. Use numbered steps, not bullets

Format:

Step 1: [Action]. [Brief explanation or expected result].

Prompt 15: Introduction Writer

Purpose: Write a clear, direct introduction that sets expectations.

Write an introduction for a digital product titled "[product title]" that helps [target audience] achieve [specific outcome].

The introduction should:

1. State what the product covers in 1–2 sentences
2. Identify who it's for
3. Explain what the reader will be able to do after completing it
4. Set realistic expectations (no hype)
5. Be 150–250 words total

Tone: professional, direct, beginner-friendly. Avoid marketing language.

SECTION 3: QUICK-WIN BONUS CREATION PROMPTS

These 12 prompts help you build fast, focused bonus content that complements your main product.

Prompt 16: One-Page Action Guide

Purpose: Create a single-page guide for immediate action.

Create a one-page action guide titled "[guide title]" that helps [target audience] complete [specific task] in under one hour.

Include:

1. A 2-sentence introduction
2. 5–7 action steps (numbered)

3. One example or scenario
4. A completion checklist (3–5 items)

Keep total length under 300 words.

Format for easy scanning.

Prompt 17: 5-Step Checklist

Purpose: Build a short, focused checklist for a specific outcome.

Create a 5-step checklist for [specific task or goal].

Each step should:

1. Start with an action verb
2. Be complete in 10–15 minutes
3. Build toward the final outcome
4. Be specific enough to check off

Format as a simple numbered list.

Add a brief title and one-sentence intro.

Prompt 18: Fast-Start Roadmap

Purpose: Provide a quick overview for someone starting immediately.

Write a fast-start roadmap for someone who wants to begin [process/system] today.

The roadmap should:

1. Have 3 main phases

2. List 2–3 actions per phase
3. Specify what to do first, second, and third
4. Be under 200 words total

Format with clear section headers.

No theory — just actions.

Prompt 19: Short Framework

Purpose: Build a condensed framework for quick decision-making.

Create a 3-step framework for [decision or process] that [target audience] can use immediately.

Each step should:

1. Have a clear, memorable name
2. Include one action
3. Take less than 5 minutes to complete

Total length: 150–200 words.

Format with step numbers and brief descriptions.

Prompt 20: Decision Shortcut

Purpose: Help readers make a specific decision quickly.

Create a decision shortcut guide titled "[guide title]" that helps [target audience] decide between [option 1] and [option 2].

Include:

1. A brief explanation of when each option works best
2. 3–4 criteria to evaluate
3. A simple decision rule (if X, choose Y)

Keep it under 200 words.

Make it immediately actionable.

Prompt 21: Naming Formula

Purpose: Provide a formula for naming products, projects, or offers.

Create a naming formula for [type of product/project].

The formula should:

1. Be structured with clear components (e.g., [Timeframe] + [Audience] + [Outcome])
2. Include 3 examples using the formula
3. Explain when to use each component
4. Be under 250 words total

Make it practical and easy to apply immediately.

Prompt 22: Productivity Shortcut

Purpose: Share a time-saving method for a repetitive task.

Write a productivity shortcut guide for [specific task].

The guide should:

1. Explain the traditional method in 1–2 sentences

2. Describe the shortcut method in 3–4 steps
3. State how much time it saves
4. Include one example

Keep it under 200 words.

Be specific about the process.

Prompt 23: Beginner Summary Guide

Purpose: Summarize a complex topic for absolute beginners.

Write a beginner summary guide for [topic].

The guide should:

1. Define the topic in one sentence
2. Explain why it matters in 2–3 sentences
3. List 3–5 key concepts to understand
4. Provide one next step

Total length: 200–300 words.

Use plain language.

No jargon.

Prompt 24: FAQ Builder

Purpose: Answer common questions about a topic or process.

Create an FAQ section answering the 5 most common questions about [topic or process].

For each question:

1. State the question clearly
2. Provide a direct answer in 2–4 sentences
3. Avoid over-explaining

Format:

Q: [Question]

A: [Answer]

Keep total length under 400 words.

Prompt 25: Resource List

Purpose: Compile a curated list of tools, links, or references.

Create a resource list titled "[list title]" for [target audience].

Include:

1. 5–10 resources (tools, links, or references)
2. One-sentence description of each
3. Why it's useful for the specific audience
4. Organized by category, if applicable

Format as a simple list.

Keep descriptions brief and factual.

Prompt 26: Swipe Sheet

Purpose: Provide copy-paste templates for common tasks.

Create a swipe sheet with 5 templates for [specific task or communication].

Each template should:

1. Be ready to copy and paste
2. Include customization fields marked with [brackets]
3. Be appropriate for professional use
4. Be 2–5 sentences long

Format with clear labels for each template.

Keep language direct.

Prompt 27: Quick Implementation Plan

Purpose: Outline a simple plan to implement a concept immediately.

Write a quick implementation plan for [concept or system].

The plan should:

1. Have 3 phases: Prepare, execute, and review.
2. List 2–3 actions per phase
3. Include a timeline (e.g., "Day 1," "Week 1")
4. Be under 300 words

Format with clear section headers.

Focus on concrete actions.

SECTION 4: RESOURCE PACK CREATION PROMPTS

These 10 prompts help you create worksheets, templates, and planning tools that support your core product.

Prompt 28: Fill-In Worksheet

Purpose: Create a worksheet with fill-in fields for structured planning.

Create a fill-in worksheet titled "[worksheet title]" for [specific planning task].

Include:

1. 5–10 labeled fields or questions
2. Brief instructions at the top (2–3 sentences)
3. Space for written responses (indicate with lines: _____)
4. A completion checklist at the end (3–5 items)

Format for easy printing and completion by hand or digitally.

Prompt 29: Planning Template

Purpose: Build a structured template for organizing a process or project.

Create a planning template for [project or process].

The template should include:

1. A header section (title, date, goal)
2. 3–5 main sections with labeled fields
3. Action items or next steps section

4. Notes or additional resources section

Format as a structured document that can be reused multiple times.

Prompt 30: Tracking Sheet

Purpose: Design a simple tracker for monitoring progress.

Create a tracking sheet for [activity or metric].

The sheet should have:

1. Column headers (Date, Task, Status, Notes)
2. 10–15 rows for entries
3. A summary section at the bottom
4. Brief instructions (1–2 sentences)

Format as a simple table that can be printed or used digitally.

Prompt 31: Execution Checklist

Purpose: Build a comprehensive checklist for completing a multi-step process.

Create an execution checklist for [process or project].

Include:

1. 10–15 action items
2. Organized into 3–4 phases
3. Checkbox or space to mark completion
4. Ordered sequentially

Format with clear phase headers and checkboxes (☐) before each item.

Prompt 32: Naming Worksheet

Purpose: Guide users through naming a product, project, or offer.

Create a naming worksheet for [type of product/project].

The worksheet should:

1. Include 3–4 naming formula options
2. Have fill-in fields for each formula component
3. Provide space to list 5–10 name variations
4. Include a validation checklist (4–5 criteria)

Format with clear sections and plenty of space for brainstorming.

Prompt 33: Pricing Worksheet

Purpose: Help users determine optimal pricing through structured questions.

Create a pricing worksheet for [type of product].

Include:

1. 5–7 positioning questions (audience level, depth, format, etc.)
2. Multiple-choice options for each question
3. A price range guidance section based on answers
4. Final decision fields (suggested price, reasoning)

Format as a structured questionnaire with clear sections.

Prompt 34: Content Planner

Purpose: Organize content creation across multiple sections or days.

Create a content planner for [project type].

The planner should include:

1. A calendar or timeline structure (7–10 days/sections)
2. Fields for each section: Topic, Key Points, Status
3. Daily or section-based word count targets
4. Completion tracking checkboxes

Format as a simple table or calendar layout.

Prompt 35: Idea Evaluation Sheet

Purpose: Evaluate and score product ideas against clear criteria.

Create an idea evaluation sheet for [product type].

Include:

1. Space to list 3–5 product ideas
2. 5–7 evaluation criteria with scoring (1–5 scale)
3. Total score calculation
4. Decision field (proceed/refine/discard)

Format as a table with clear rows and columns for easy comparison.

Prompt 36: Launch Checklist

Purpose: Ensure all launch requirements are completed before going live.

Create a launch checklist for [product or platform].

Include:

1. Pre-launch tasks (10–12 items)
2. Launch day tasks (5–7 items)
3. Post-launch tasks (5–7 items)
4. Organized with checkboxes and clear section headers

Format sequentially.

Use action verbs for each item.

Prompt 37: Review Checklist

Purpose: Verify quality and completeness before finalizing.

Create a review checklist for [product or document type].

The checklist should have:

1. Content review items (5–7 checks)
2. Formatting review items (3–5 checks)
3. Final delivery checks (3–4 items)
4. Organized with checkboxes

Format with clear categories.

Make each item specific and checkable.

SECTION 5: BUNDLE POSITIONING PROMPTS

These 8 prompts help you position and describe your product bundle effectively.

Prompt 38: Bundle Description

Purpose: Write a clear description of your complete product bundle.

Write a bundle description for [product name] that includes [list components].

The description should:

1. State what the bundle helps achieve in 1–2 sentences
2. List all components with brief descriptions (1 sentence each)
3. Explain how the components work together
4. Be 200–300 words total

Tone: professional, clear, no hype. Focus on what buyers get and how they use it.

Prompt 39: Value Stacking Explanation

Purpose: Show how bundle components add value without exaggeration.

Explain the value stack for a bundle containing [list components].

For each component:

1. State what it is
2. Explain its specific purpose
3. Show how it supports the main product

4. Keep each description to 2–3 sentences

Format as a stacked list.

Be factual.

Avoid price mentions or exaggerated value claims.

Prompt 40: Component Naming

Purpose: Generate names for bundle components that are clear and specific.

Generate 5 name options for [describe component type].

Each name should:

1. Clearly indicate what the component is
2. Include the outcome or benefit
3. Be specific, not generic
4. Be under 10 words

Format as a numbered list.

Provide brief reasoning for each name (1 sentence).

Prompt 41: Offer Clarity Rewrite

Purpose: Simplify and clarify an existing product description.

Rewrite this product description for clarity:

[paste existing description]

Apply these changes:

1. Remove vague language and hype

2. State exactly what buyers get
3. Use concrete, specific terms
4. Shorten sentences where possible
5. Keep it under 200 words

Return the rewritten version only.

Prompt 42: Sales Bullets Generator

Purpose: Create benefit-focused bullet points for product descriptions.

Generate 10 sales bullets for [product name] that help [target audience] achieve [outcome].

Each bullet should:

1. Start with a clear benefit or feature
2. Be specific, not generic
3. Be one sentence
4. Avoid hype language
5. Follow this structure: [What they get] so they can [what they do with it]

Format as a bulleted list.

Keep each bullet under 15 words.

Prompt 43: Feature-to-Benefit Converter

Purpose: Convert product features into clear buyer benefits.

Convert these features into benefits:

[list features]

For each feature, write:

1. What it is (the feature)
2. What it allows the buyer to do (the benefit)
3. Why that matters (the outcome)

Format: Feature → Benefit → Outcome.

Keep each conversion to 2 sentences.

Prompt 44: Objection Reduction Copy

Purpose: Address common purchase objections directly.

Write copy addressing this common objection:

"[state the objection]"

The response should:

1. Acknowledge the concern
2. Provide a factual counterpoint.
3. Show how the product addresses it
4. Be 100–150 words

Tone: understanding but confident. No dismissiveness. No over-promising.

Prompt 45: Buyer Transformation Explanation

Purpose: Describe the before-and-after state clearly.

Describe the transformation for someone who completes [product name].

Write:

1. Where they start (their current state in 2–3 sentences)
2. What changes during the process (2–3 sentences)
3. Where they end up (the achieved state in 2–3 sentences)

Total length: 200–250 words.

Be specific about outcomes.

Avoid exaggeration.

SECTION 6: PLATFORM SETUP PROMPTS

These 5 prompts help you write platform-specific copy for product listings.

Prompt 46: WarriorPlus Listing Description

Purpose: Write a clear WarriorPlus product description.

Write a WarriorPlus listing description for [product name] that helps [target audience] achieve [outcome].

Include:

1. What the product is (1–2 sentences)
2. What's included (list main components)
3. Who it's for
4. What buyers will be able to do after completing it
5. Total length: 250–350 words

Tone: professional, direct, beginner-friendly. No hype. No income claims.

Prompt 47: Gumroad Product Description

Purpose: Write a clean Gumroad product page description.

Write a Gumroad product description for [product name].

Include:

1. A one-sentence overview
2. What buyers get (list format)
3. Who should buy this
4. What they'll achieve
5. Total length: 200–300 words

Format with short paragraphs and bullet points.

Keep the tone clear and professional.

Prompt 48: Product Short Description

Purpose: Create a concise summary for listings or previews.

Write a short description (50–75 words) for [product name].

Include:

1. What it is
2. Who it's for
3. What outcome it delivers

Make it clear, direct, and scannable.

No filler. Just the essential information.

Prompt 49: Refund Policy Clarity Text

Purpose: Write a clear, fair refund policy statement.

Write a refund policy statement for [product type].

Include:

1. The refund window (e.g., 30 days)
2. What qualifies for a refund
3. How to request one
4. Response timeframe

Keep it under 100 words.

Be clear and fair.

No aggressive language.

Prompt 50: Support Section Wording

Purpose: Provide clear support contact information and expectations.

Write a support section for [product name].

Include:

1. Support email address
2. Expected response time
3. What to include in support requests
4. Alternative help resources, if applicable

Keep it under 150 words.

Tone: helpful and professional.

SECTION 7: QUICK REFERENCE PROMPT INDEX

Use this index to quickly locate the prompt you need.

CORE PRODUCT CREATION PROMPTS

1. Product Outline Builder — Generate a complete product structure with chapters and sections
2. Chapter Expansion Prompt — Turn chapter titles into full content
3. Section Deep Dive — Expand single sections with depth
4. Beginner Simplification Rewrite — Rewrite complex content for beginners
5. Clarity Tightening Prompt — Remove unnecessary words and tighten language
6. Remove Fluff Editor Prompt — Strip marketing language and hype
7. Example Generator Prompt — Create specific, realistic examples
8. Framework Creation Prompt — Build simple, memorable frameworks
9. Visual Diagram Description Prompt — Describe processes as visual diagrams
10. Checklist Builder — Convert instructions into actionable checklists
11. Case Example Builder — Create realistic case studies
12. Comparison Table Builder — Build comparison tables for options
13. Objection Handling Explanation — Address reader concerns directly
14. Step-by-Step Builder — Break processes into numbered steps
15. Introduction Writer — Write clear, expectation-setting introductions

QUICK-WIN BONUS CREATION PROMPTS

- 16. One-Page Action Guide — Create single-page implementation guides
 - 17. 5-Step Checklist — Build focused outcome checklists
 - 18. Fast-Start Roadmap — Provide quick-start overviews
 - 19. Short Framework — Build condensed decision frameworks
 - 20. Decision Shortcut — Help readers make specific decisions quickly
 - 21. Naming Formula — Provide naming formulas with examples
 - 22. Productivity Shortcut — Share time-saving methods
 - 23. Beginner Summary Guide — Summarize complex topics for beginners
 - 24. FAQ Builder — Answer common questions
 - 25. Resource List — Compile curated tool and resource lists
 - 26. Swipe Sheet — Provide copy-paste templates
 - 27. Quick Implementation Plan — Outline immediate implementation steps
-

RESOURCE PACK CREATION PROMPTS

- 28. Fill-In Worksheet — Create structured planning worksheets
- 29. Planning Template — Build reusable planning templates
- 30. Tracking Sheet — Design progress tracking sheets
- 31. Execution Checklist — Build comprehensive process checklists
- 32. Naming Worksheet — Guide product naming decisions
- 33. Pricing Worksheet — Determine optimal pricing
- 34. Content Planner — Organize content creation schedules

- 35. Idea Evaluation Sheet — Evaluate and score product ideas
 - 36. Launch Checklist — Ensure launch readiness
 - 37. Review Checklist — Verify quality before finalizing
-

BUNDLE POSITIONING PROMPTS

- 38. Bundle Description — Write clear bundle descriptions
 - 39. Value Stacking Explanation — Show component value without exaggeration
 - 40. Component Naming — Generate clear component names
 - 41. Offer Clarity Rewrite — Simplify existing descriptions
 - 42. Sales Bullets Generator — Create benefit-focused bullet points
 - 43. Feature-to-Benefit Converter — Convert features into buyer benefits
 - 44. Objection Reduction Copy — Address purchase objections
 - 45. Buyer Transformation Explanation — Describe before-and-after states
-

PLATFORM SETUP PROMPTS

- 46. WarriorPlus Listing Description — Write WarriorPlus product descriptions
 - 47. Gumroad Product Description — Write Gumroad page descriptions
 - 48. Product Short Description — Create concise listing summaries
 - 49. Refund Policy Clarity Text — Write clear refund policies
 - 50. Support Section Wording — Provide clear support information
-

You now have 50 prompts ready to accelerate your product creation. Use them as written, customize them for your needs, and refine the outputs to match your voice.
