

QUICK START GUIDE

The 7-Day First Product Launch Blueprint

Start Here: Your First 15 Minutes

Momentum beats perfection.

The next 15 minutes determine whether this becomes another guide you bought — or a product you actually ship.

Follow these three steps right now.

Step 1: Confirm Your Product Idea (5 Minutes)

Open Chapter 4 and answer the 4-Question Decision Framework.

Pick the idea that:

- You already know enough about to teach
- Solves a specific problem you've personally solved
- Can be outlined in under 30 minutes

Write your product title.

Done is better than perfect.

Step 2: Build Your Product Skeleton (7 Minutes)

Turn to Chapter 5, Step 1 and use the skeleton-building method.

List 5–7 chapter titles.

Each chapter represents one major step or concept.

Keep titles simple:

Chapter 1: [What they need to know first]

Chapter 2: [The foundation step]

Chapter 3: [The next logical action]

Continue until you reach the end result.

This skeleton becomes your roadmap.

You now know exactly what to write.

Step 3: Schedule Two Focused Writing Sessions (3 Minutes)

Block two 90-minute writing sessions in your calendar this week.

Mark them as:

Session 1: Write first half of core product (Chapters 1–3)

Session 2: Complete second half (Chapters 4–7)

Treat these sessions like client meetings.

Non-negotiable.

You've just completed the hardest part: starting.

Everything from here is execution.

7-Day Execution Snapshot

This is your high-level roadmap.

Each day builds on the last.

Follow the sequence and trust the process.

Day 1: Confirm your product idea and build a complete product skeleton.

Day 2: Write the first half of your core product.

Day 3: Complete the second half and review the full draft.

Day 4: Format the core product and write the quick-win bonus.

Day 5: Build the resource pack and assemble the full bundle.

Day 6: Set up your platform account and create the product listing.

Day 7: Final review, test purchase, and go live.

Remember:

Completion beats perfection.

Each day requires two to four focused hours.

You're not working around the clock.

You're working with a plan.

If a day runs long, extend it.

Don't skip steps.

The roadmap in Chapter 10 provides the full breakdown for each day.
